

Repair & Share

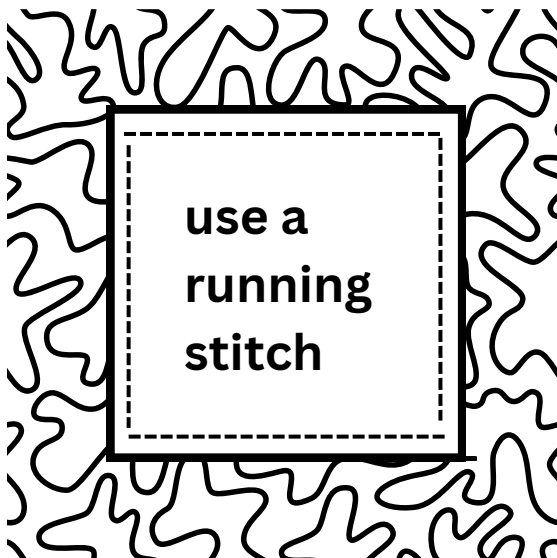

Patches

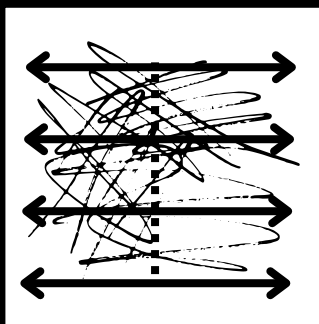

Cut a piece of fabric bigger than the hole you're covering. Fold the edges of the patch underneath and pin onto the garment - inside or outside, as below...

Patch on the “right” side (the front or outside of the garment) for a visible mend:

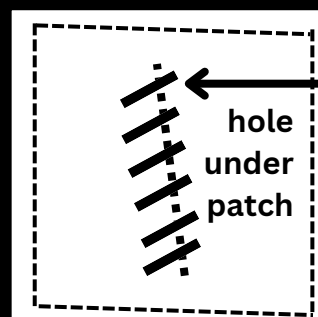

Patch on the “wrong” side (the reverse or inside of the garment) for an invisible mend:

Sew all over the patch

on the back of the item
in matching thread

or sew the edges of the hole

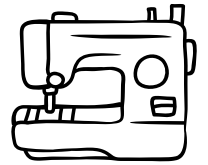

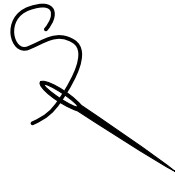

with
matching
thread and
cover with
patch on
the back

(the patch makes it stronger)
